Leagues and Tournaments

If your organization is operating a league or tournament, your organization will need to provide a rulebook for the event to the Basketball Saskatchewan Office

Insurance Considerations

- a) Currently No Out of Country Insurance – will notify members when that component becomes active again

- b) Pandemic Exclusion – our insurance policy holder (Aon/Markel) has added Covid-19 to the pandemic exclusion clause as of April 2020. This clause eliminates insurance coverage from both a medical expenses and liability perspective arising from COVID 19 and the other diseases already in the clause (i.e. Legionnaires, SARs, H1N1 etc.). We are working with the providers to add back in legal expenses coverage but nothing has been approved to date. Because of this exclusion clause it is extremely important for all organizations to be able to demonstrate that they followed all reasonable expectations for addressing the health and safety of participants in their return to sport plan in order to serve as a form of legal defense in case of a liability lawsuit. This includes being able to demonstrate that you are in alignment with the appropriate governing bodies (Gov't of Sask, SHA, BSI).

Respectfully Yours:
